

80 HOURS

This program includes designing and implementing the perfect technology professional development plan based on your district's instructional goals, teacher needs and current district technology using data collected from your district.

NWOET will work hand-in-hand with your teachers, administrators and technology coordinators to develop a plan that will best support your district's goals.

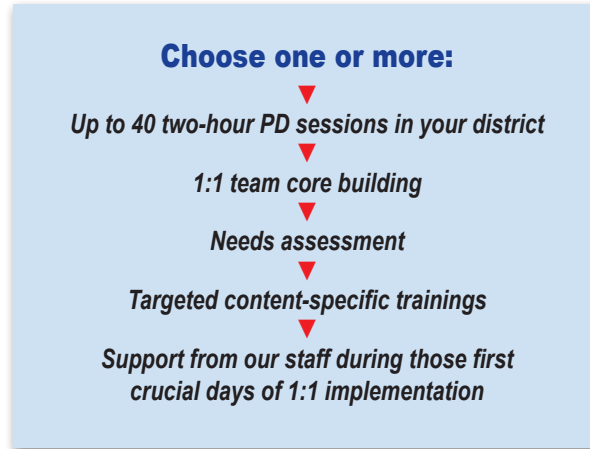

Call NWOET at 1-800-966-9638 for more information.

NWOET Comprehensive Members:

- ▶ 80 hours PD = \$8,500
- ▶ Travel = no charge

For NWOET Basic Members:

- ▶ 80 hours PD = \$10,500
- ▶ Travel = \$75 hour, 1 hour minimum

OTHER USES FOR YOUR 80 HOURS:

- ▶ Customized professional development*
- ▶ Face-to-face in-district workshops*
- ▶ Equipment with PD trainings*
- ▶ Attending any NWOET professional development event*
- ▶ Online, blended learning instruction & online testing support
- ▶ Call to explore the possibilities

NWOET NEEDS ASSESSMENT

NWOET can help you identify the strengths and needs of your professional staff.

▶ Needs Assessment & Pre/Post Assessment Instruments

21st Century Strategies

This 21C skills assessment is a 'high level' look at teaching strategies in your district. It uses the nationally recognized p21.org mileage format for a quick snapshot.

Tech Tools Self-Assessment

This self-assessment is intended to get a feel for how confident your teachers are in their use of tech tools.

PD Requests – Ranked

The final survey is almost always customized after the initial needs assessments to include a relatively small set of options presented to teachers (typically 8-12 topics).

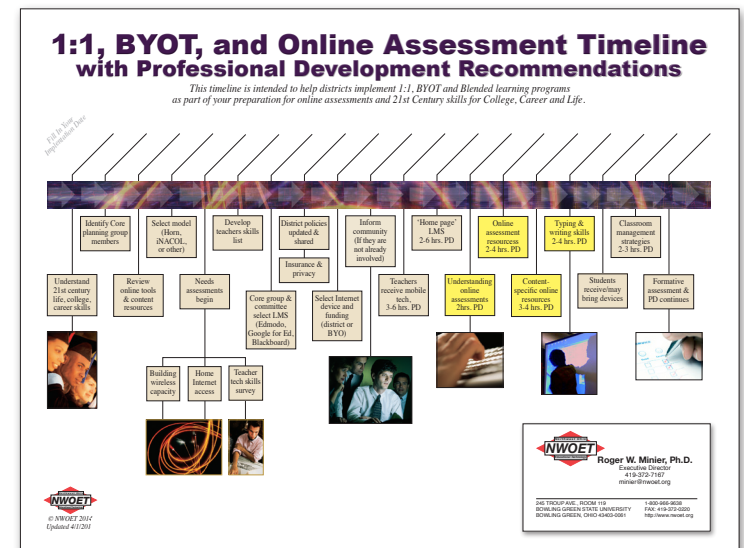

▶ Formative Assessments

All professional development offered by NWOET includes a standard end-of-session evaluation which may be used to help guide further PD activities.

▶ Additional Assessments

An almost infinite range of additional assessments are available, from those which follow nationally recognized standards by AASL, ISTE and others to those tailored directly to your teachers specific needs.

*Each hour of a 30, 40, or 80 hour professional development contract may be used for one staff member to attend any NWOET advertised day-long training of eight hours or less. Contract hours may not cover equipment costs.

NWOET 1:1 Team CORE Building

CORE Group Training Details

- ▶ 10 district educators trained
- ▶ 3 different technology/teaching strategies
- ▶ 2-6 hours per day of training

CORE Group Members begin by using the strategies learned with their own students in the classroom. NWOET will help make this a smooth and efficient effort by visiting frequently, helping during planning sessions or even

modeling instruction IN the classroom. CORE members then move to helping OTHER teachers in your district develop and expand capabilities until EVERY teacher is able to implement the teaching tools and strategies as part of their ongoing instructional process.

This intensive train-the-trainer model will focus on 3-5 days of intensive instruction focusing on the 3 teaching tools and strategies, which your district selects based on YOUR needs assessment. You will leave with the skills, research base and teaching tools including hand-outs and web-based resources to use with YOUR district's educators.
